

## Prorated dues October 1, 2024

### What proration means for organizing new clubs

*Effective October 1, 2024, new members joining existing clubs are billed on a proration schedule based on the month they join Kiwanis. The process by which existing clubs are billed for new members has been communicated to clubs and included in the 2024-2025 Club Leadership Education for treasurers.*

**Effective October 1, 2024, new charter members of new clubs will continue to be billed on the same proration scheduled as existing clubs, but will be handled in the following manner:**

- **The proration amount will be determined by the date of the organizational meeting of the new club as reported on the new club sheet to Kiwanis International.** All members of the new club will be charged the same amount no matter when they complete the application to join.
- **Club opening team members will need to determine how much should be collected from the new members of the new club prior to beginning the club opening process.** The fee collected will be distributed to three areas:
  - Kiwanis International dues portion
  - District dues portion
  - Club portion to begin administrative fund

*Please note: Since October 1, 2021 there has been no longer a “charter fee” for new members of new clubs. A new club opened in October 2024 in Alabama would be charged US\$107 for International dues and US\$36 for district dues per new member (total of US\$143). To begin the club’s administrative fund, it might be determined each new member would be charged US\$170 which would leave US\$38 to the club per new member.*

- **The proration amount determined by the organizational meeting is in effect until 90 days after the club has completed all paperwork.** After that date, new members are charged based on the month they join the new club.

### Other items club openers should know

**Alumni of Key Club and Circle K continue to qualify for a two-year international dues waiver.** The alumni status of the new member should be reported to Member Services, so the member is not billed. Kiwanis International strongly encourages club openers to collect the club portion from an alumni member so the alum is contributing to the club’s administrative fund.

### Kiwanis International dues for US and Canada

*Kiwanis International member dues are US\$107:US\$77 for Kiwanis Dues plus US\$8 for Kiwanis magazine and US\$22 for liability and Directors and Officers Insurance per year.*

**October—no proration**  
US\$107.00
